Manufacturer:

BODY BIKE International A/S
Pier 6 Nord
DK-9900 Frederikshavn
Denmark
Tlf: +45 9843 9696
www.body-bike.com

Product description:

Indoor watt cycle with generator

Patent held for:

Crank system

Materials:

Cast iron
Stainless steel
Anodised aluminium
Plastic (ABS) covers
High quality bearings
Frame: Robot-welded, powder coated and hardened.

Dimensions & weight

Length, Width, Height:

Assembled: 106x59x99 cm / 41x23x39 in
Floor space: 0.63 m² / 6.79 ft²
Packed (5 cycles): 120x80x114 cm

Weight:

Assembled: 64 kg
Packed weight (5 cycles): 345 kg
Flywheel weight: 20 kg / 44 lbs

Pedal arm length: 170 mm / 6.7 in
Q-factor: 168 mm / 6.6 in

Max user weight: 150 kg/331 lbs (Please note that the max. pedal load may be lower)

Max user height: 220 cm/7.2 ft

WARRANTY

Warranty for the Danish manufactured BODY BIKE Indoor Cycle:

A two-year warranty against manufacturing defects, excluding normal wear and tear, is given for the load cell, brake unit, flywheel and pulley. A three-year warranty is given on the crank, and a five-year warranty is given against frame breakage. The generator has a one-year warranty. A life-time warranty is given against breakage of the pedal arm. *

Any part not mentioned above is not covered by warranty. This means that consumable items (including, but not limited to, the SMART Release handles, the Poly V-belt, brake pad, handlebar rubber, saddle and the silicone generator wheel) which are subject to continuous wear and tear, are not covered by warranty. There is currently no warranty applying to the pedals.

The warranty covers failures as a result of a manufacturing fault and occurred during normal use. It does not extend to faults resulting from misuse, abuse, damage incurred during loading, transportation or improper storage, or where the indoor cycle has been used other than as recommended by BODY BIKE, or modified without BODY BIKE's consent. The cycles are made for indoor use in a well-ventilated room. Do not place the cycles outdoors or in a high humidity environment like near a swimming pool.

The warranty only applies to cycles equipped with original BODY BIKE spare parts. All warranties are cancelled if the cycle has been modified or in any way not used as intended.

Over time sunlight and other environmental impacts will affect the plastic and rubber parts. Hardened rubber, faded colours or other issues caused by environmental impacts are not covered by any warranties.

* The warranty does not cover powder coating or thread.

CERTIFICATION

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

EU Declaration of Conformity

This device complies with the essential requirements of the Radio Equipment Directive, RED 2014/53/EU.

The following test methods have been applied in order to prove presumption of conformity with the essential requirements of the RED 2014/53/EU:

EN60950
EN61000-6-2
EN61000-6-3
EN 55022+EN 55024(2010)
EN 301 489-1 V1.8.1(2008-04)
EN 301 489-3V1.4.1(2002-08)
EN 300 440-2 V1.3.1(2009-03)

This device is a 2.4 GHz wideband transmission system (transceiver), intended for use in all EU member states and EFTA countries, except in France and Italy where restrictive use applies.

In Italy the end-user should apply for a license at the national spectrum authorities in order to obtain authorization to use the device for setting up outdoor radio links and/or for supplying public access to telecommunications and/or network services.

This device may not be used for setting up outdoor radio links in France and in some areas the RF output power may be limited to 10 mW EIRP in the frequency range of 2454 – 2483.5 MHz. For detailed information the end-user should contact the national spectrum authority in France.

Hereby, BODY BIKE declares that the BODY BIKE SMART+ is in compliance with the essential requirements and other relevant provisions of RED 2014/53/EU.

ANT+ and Bluetooth

The SMART+ control box is compatible with BLE/Bluetooth Smart and ANT+ certified.
