WORLD CLASS INDOOR BIKES

QUALITY & SUSTAINABILITY

One distinctive and revolutionary design feature makes BODY BIKE® stand out from the crowd: our indoor cycles are fully enclosed. The covers protect the user from the rotating flywheel and they preserve the inner components ensuring **high durability** and **low maintenance**. BODY BIKE® values sustainability, and the bikes are built to last. Buy quality, buy once. Buy BODY BIKE®

EQUIPMENT LIFE & MAINTENANCE

The use of high quality materials like **stainless steel, aluminum, cast iron and carefully selected plastic components** provide a highly reliable and durable product. Suitable for even the toughest indoor cycling environments. The bikes are easy to clean and service. Follow our maintenance guide and use original spare parts to make your bike last. View maintenance guides and spare parts on the BODY BIKE® website.

NO WEAK LINKS

20 KILO FLYWHEEL & SKF BEARING

All BODY BIKE® models are equipped with a 20kg/44 lbs. flywheel made of cast iron. The weight ensures a natural cycling experience. The SKF bearings enhance's productivity and reduce the chances of breakdown and minimize down time

1500 HOUR KEVLAR® BRAKE PAD

All BODY BIKE® models are equipped with a Kevlar brake pad. The brake pad is made from hardened aluminum that is surface anodized and fitted with the BODY BIKE synthetic Kevlar® brake pad.

POLY-V BELT WITH KEVLAR® REINFORCEMENT

All BODY BIKE® models are equipped with a Kevlar®-reinforced Poly-V belt to enhance equipment life and durability. Ensures a smooth and silent cycling experience.

BODY BIKE® DUAL SPD/STANDARD PEDALS

The BODY BIKE® dual SPD/standard pedals features a wide non-slip pedaling surface on one side and an SPD locking system on the other side. Giving you the option to click in cycling shoes or use regular trainers.
